Made with PosterMyWall.com

Name of Programme	“All About Patent”
Day and Date	Tuesday, 22 December 2020
Platform	Google Meet
Name of Resource Persons	Mr. Amol Phadtare
Name of Cell	Start-up & Innovation Cell
Name of Coordinator	Dr. Rohan P. Dahivale

Objectives of Programme:

- To understand about basic information related to Patent
- To know the importance of Patent, from business perspective

Description of Programme:

A patent is a form of intellectual property that gives its owner the legal right to exclude others from making, using, selling, and importing an invention for a limited period of years, in exchange for publishing an enabling public disclosure of the invention. In most countries patent rights fall under civil law and the patent holder needs to sue someone infringing the patent in order to enforce his or her rights. In some industries patents are an essential form of competitive advantage; in others they are irrelevant. We want to give our students, entire information regarding patents.

Highlights of the webinar

- 1) The event was organized on 22/12/2020, Tuesday from 5 pm to 8 pm on Google Meet.
- 2) Event was conducted under Start-up & Innovation Cell.
- 3) Director Sir gave introduction speech and brief about ‘reason behind conduct of this seminar.
- 4) We got Mr. Amol Phadtare from the organization Patent One as our guest speaker.
- 5) Mr. Amol Phadtare Sir highlighted following information:
“The procedure for granting patents, requirements placed on the patentee, and the extent of the exclusive rights varies widely between countries according to national laws and international agreements. Typically, however, a patent application must include one or more claims that define the invention”.

Outcome of Programme:

- Awareness was created among students regarding Patent.
- Students understood the importance of Patents from business perspective
- Seminar helped students to understand the intellectual property rights i.e. Patent.
- Total 19 participants (students and staff) were present for this webinar.

The Patent Application filing timelines

The flowchart illustrates the timeline of a patent application. It starts with 'Application' (12 months), followed by 'Publication' (18 months), 'Request for examination', 'Examination', 'First Examination Report', 'Response to First Examination Report' (Within 6 months of the First Examination Report), 'Grant of patent' or 'Rejection decision', 'Issuance of certificate of patent', 'Announcement of grant of patent', and 'Registration of grant of patent'. A box on the left indicates 'Period open for opposition to grant of a patent' covering the period from 'Application' to 'Announcement of grant of patent'. Another box at the bottom indicates 'Registration of opposition in the grant (up to 1 year after grant)'. The name 'amol phadatare' is visible at the bottom of the slide.

PatentOne

Various subject matters of Intellectual Property in India

2. Patents

Law – Patents Act, 1970, amended in 2006
Ministry – DIPP, Ministry of Commerce and industry

The object of patent law is to encourage scientific research, new technology and industrial progress

The price of the grant of the monopoly is the disclosure of the invention at the Patent Office, which, after the expiry of the **fixed period (20 years)** of the monopoly, passes into the public domain.

The fundamental principle of Patent law is that a patent is granted only for an invention which must have novelty and utility.

Name of Programme	“Importance of Implementation of Six Sigma”
Day and Date	Saturday, 24 July 2021
Platform	Google Meet
Name of Resource Persons	Mr. Kiran Pawar
Name of Cell	OSCM House
Name of Coordinator	Dr. Rohan P. Dahivale

Objective of Programme:

- To understand important of six sigma
- To study the basic implementation process for six sigma

Description of Programme:

The institute has organized half day webinar on “Importance of Implementation of Six Sigma” under Start-up and innovation cell on 24 July 2021. Mr. Kiran Pawar is the alumni of RIMRD.

Mr. Kiran elaborated that, Six Sigma strategies seek to improve manufacturing quality by identifying and removing the causes of defects and minimizing variability in manufacturing and business processes. This is done by using empirical and statistical quality management methods and by hiring people who serve as Six Sigma experts. Each Six Sigma project follows a defined methodology and has specific value targets, such as reducing pollution or increasing customer satisfaction.

The program coordination was done by Dr. Rohan P. Dahivale who proposed vote of thanks.

This activity was done under OSCM House.

Participants: Total participants: **33**

Outcome of Programme:

- All teaching staff and students got basic knowledge about six sigma
- All participants understood the basic implementation process for six sigma
