## Solid Waste Management

Solid-waste management is nothing but the collecting, treating, and disposing of solid material that is discarded because it has served its purpose or is no longer useful. Some of the common solid waste obtained includes daily garbage such as white used paper, card sheets, rubber waste, and plastics, cardboard material etc. These materials are collected and disposed off. Dustbins are located on various floors at various locations such as classrooms, library, staffroom, admin office etc. This separated waste is then collected by the corporation garbage collecting van outside the Institute campus. Other solid waste such as old newspapers, old journal volumes, outdated brochures etc. are sold to scrap vendor.

### **E-Waste Management**

The rapid expansion of technology and the consumption driven society results in the creation of a very large amount of e-waste at every minute. Electronic waste management (e-waste) refers to the disposal of broken or obsolete electronic components and materials. E-waste material is recyclable, such as random access memory chips and reusable laptops.

The e-waste generated in the Institute comprises of battery, UPS, discarded input devices like mouse devices, key boards, printers etc. The e-waste is reused whenever possible by repairing. The unrepairable ewaste is donated to e-waste collection of Pune Municipal Corporation Centre located near the institute.

**Research & Development, Pune-43**

Approved by AICTE, Recognized by DTE (Govt. of Maharashtra),  
Affiliated to Savitribai Phule Pune University

**An activity of E-Waste Collection & Submission**

**Objectives of Programme:**

- 4) To collect e-waste from our home and surroundings
- 5) To submit collected e-waste to PMC's E-waste collection center, Dhankawadi
- 6) To create awareness among the students regarding increasing e-waste

**Description of Programme:**

RIMRD and social souls cell initiated an activity to collect e-waste and to submit it in the PMC's E-waste collection center, Dhankawadi

**E-WASTE COLLECTION**

Defined as the waste generated from used electronic and electrical appliances which are not for their intended use. E waste is classified as a hazardous waste because it contains many toxic ingredients including halogenated compounds PCBs and heavy metals. Presently collected by bhangarwallas and scrap shops around the city it makes its way to scrap markets. Collection, segregation, dismantling reuse, recycle refurbishment, export, open burning and land

**Total 41 Students and 9 staff members** have collected e-waste from their surroundings and submitted to PMC's (Pune Municipal Corporation) E-waste collection center, Dhankawadi

**Outcome:**

- Students learn and got aware about e-waste.
- Students understood their responsibilities towards e-waste (if generated) then should be properly recycled.

# SWACH#

A higher level of self-reliance

Cert. No. RIMRD Feb 2021

## V-Collect Certificate

This is to certify that SWaCH Pune conducted a V-Collect Drive in the month of **February - 2021** with **Rajgad Dnyanpeeth's, Rajgad Institute of Management Research and Development, Dhankwadi, Pune-43** and collected the following materials

We have received **54 kg clothes, 03 kg E-Waste and 02 kg toys.**

**Total 59kg materials donated for Reuse/Recycling.**

### We thank you for your donation!

All your donations will be reused, recycled and re-purposed by Pune's waste-pickers. This in turn reduces pollution & the amount of refuse dumped in the Uruli landfill, conserves energy & natural resources, & also helps create jobs!

SWaCH Pune Seva Sahakari Sanstha Maryadit is India's first wholly-owned cooperative of self-employed waste-pickers. It provides front-end waste-management services in partnership with the Pune Municipal Corporation.

Address: Old Aundh Ward Office, Bremen Circle, Aundh Pune 411 008
