National Level Webinar

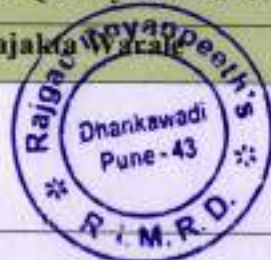

DATA VISUALISATION TOOL - TABLEAU

22nd October 2021

Resource Person: Dr. Huma Lone

Data Mining & Artificial Intelligence Expert
Faculty - Suryadatta Group of Institutes

Name of Programme	National Level Webinar on Data Visualisation Tool: Tableau
Day and Date	22 nd October 2021, 10am – 1pm
Venue	Online platform, Google Meet
Name of Resource Persons	Dr. Hume Lone, Data Anaytics, Data Mining and Artificial Intelligence Expert, Faculty-Suryadatta Group of Institute
Name of Cell	Internal Quality Assurance Cell/ Business Analytics House
Name of Coordinator	Dr. Prajakta Wagle

**Rajgad Dnyanpeeth's

Development, Pune-43**

Approved by AICTE, Recognized by DTE (Govt. of Maharashtra),
Affiliated to Savitribai Phule Pune University

**National Level Webinar on Data Visualisation Tool: Tableau
22nd October 2021, 10am – 1pm**

Institute has organised One Day National Webinar on "Data Visualisation Tool: Tableau" on 22nd October, 2021 from 10 am to 1pm.

Objectives of the Webinar:

1. To learn Data Visualisation using Tableau
2. To study how to create dashboards in Tableau
3. To be trained how to create story telling in Tableau
4. To gain knowledge of difference between Tableau Desktop and Tableau public software version
5. To understand regarding different certification courses

Description of Webinar:

Tableau is a powerful and fastest growing data visualization tool used in the Business Intelligence Industry. It helps in simplifying raw data in a very easily understandable format. Tableau helps create the data that can be understood by professionals at any level in an organization. Keeping in pace with the latest technology, Internal Quality Assurance Cell (IQAC) in association with Business Analytics House has organised National Webinar on "Data Visualisation Tool: Tableau".

Total Students Participants: 65

The webinar started with welcome address given by Dr. Prajakta Warale, Coordinator – IQAC. She gave brief introduction of the Resource Person. At the beginning of the webinar Dr. Huma Lone gave detail introduction of Tableau software, its importance in data visualisation, what is dataset? How important is data visualising for business organisation.

Rajgad Dnyanpeeth's
Rajgad Institute of Management Research &
Development, Pune-43

Affiliated to Savitribai Phule Pune University

Later in her session , she spoke on how to create simple and interactive dashboards. She explained regarding different types of dashboards, different editing options in terms of colour, images and types of dashboards.

She demonstrated the visualisation of tableau charts, pareto charts, how to create dashboards, how to apply various colour schemes in dashboards etc.

In the last session, she discussed regarding story telling through Tableau. How data stories can be used to communicate with decision makers, and how your data stories can be used to impact lasting change in the world.

Further she used sales dataset for creating story and explained step by step how to create effective story and presentations. Overall the session was highly appreciated by all students.

At the end the feedback form was shared to all participants . The webinar was concluded with vote of thanks.

Outcome:

1. Students learned regarding importance of Data Visualisation .
2. Students studied how to create dashboards in Tableau
3. Students learned how to create story telling in Tableau
4. All participants got knowledge of difference between Tableau Desktop and Tableau public software version

Speaker Profile

Dr. Huma Lone has 14 years of work experience. Her experience spans 12 years in teaching and 2 years in business development & project administration. Her expertise is in **Business Analytics and Machine Learning**. Her qualifications are:

- **Ph.D.** in Computer Management
- **M.B.A.** in Computer Management
- **B.E.** Electronics

Dr. Huma is certified in the following areas:

- Tableau 2019, 2018 & 10: Qualified associate certification
- Regression, Data Mining, Text Mining and Forecasting using R Programming
- Machine Learning using Python
- Google Analytics for Beginners
- Advance Google Analytics
- Google analytics for Power Users
- Getting Started with Google Analytics 360
- Introduction to Data Studio
- Google Tag Manager Fundamentals
- Digital Business
- E-Business (**NPTEL Online Certification**)
- Business Analytics & Data mining modelling using R Part II (**NPTEL Online Certification**)
- Microsoft Excel -Excel from Beginner to Advanced

Dr. Huma has published 15 research papers in various national & international conferences & journals. She accomplished SPPU sponsored project. She has contributed to content development and FDPs of IT and Business analytics subjects of SPPU & has provided assistance in operational support to university related work.

She has been awarded with **The Gold Medal – “Murty Prize for Excellence”** in M.B.A.

Resource Person

- 14 years of work experience
- Her experience spans 12 years in teaching and 2 years in business development & project administration.
- Expertise is in **Business Analytics and Machine Learning**.
- **Certified in Tableau ,Data Mining, Machine Learning using Python, Google Analytics**
- 15 research papers National & International Conferences & Journals

Dr. Huma Lone
Ph.D., M.B.A., B.E.

TABLEAU

POWERED BY DATA

BY DR. HUMA LONE

WHAT IS TABLEAU?

Tableau is a powerful and fastest growing data visualization tool used in the Business Intelligence.

Simple Drag and Drop functionalities

- Allows the users to design Charts, Maps, Tables, Pivot reports, Stories and Dashboards without any technical knowledge/Programming Skills.
- Connects and extracts the data source in various places.
- Can pull data from any database imaginable.

A simple database such as an excel, pdf, to a complex database like Oracle, a database is the cloud.

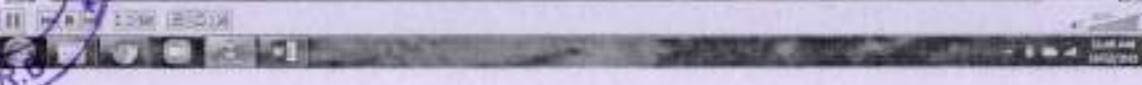

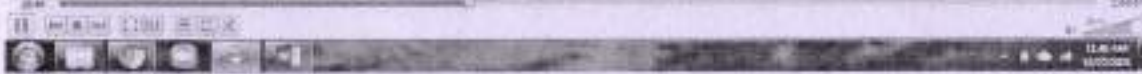

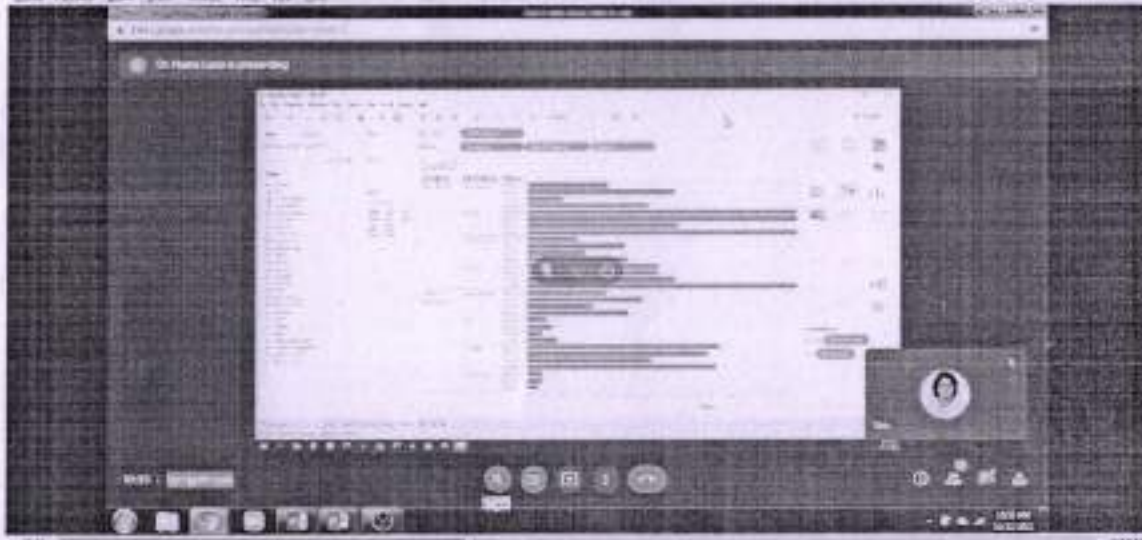

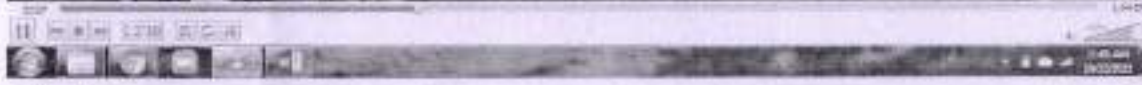

TABLEAU CERTIFICATION

- <https://www.tableau.com/learn/certification>
- Specialist Desktop
- Certified Associate
- Certified Professional
- Certified Associate Server
- Certified Professional Server

This screenshot shows a presentation slide with a dark background and a white content area. The title 'TABLEAU CERTIFICATION' is at the top. Below it is a list of certification levels. A URL is also provided. A small video thumbnail is visible on the right side of the slide.

DIFFERENT CHARTS

- Bar charts
- Pareto Chart
- Bullet Chart
- Bar Chart
- Line chart
- Text Tables
- Heat Map
- Different Maps
- Gantt chart
- Pie Chart
- Scatter Plot
- Area Chart
- Dual Axis Chart
- Bubble Chart
- Histogram
- Waterfall Chart
- Funnel chart & Advanced Funnel

This screenshot shows a presentation slide titled 'DIFFERENT CHARTS'. It features two columns of chart types listed with bullet points. A small video thumbnail is visible on the right side of the slide.

PLACES FOR PUBLISH

- DESKTOP
- TABLET
- MOBILE PHONE

This screenshot shows a presentation slide titled 'PLACES FOR PUBLISH'. It features three circular icons representing a desktop monitor, a tablet, and a mobile phone. Below each icon is its corresponding label: 'DESKTOP', 'TABLET', and 'MOBILE PHONE'. A small video thumbnail is visible on the right side of the slide.

Sub:- Letter for Appreciation.

Dear Madam,

We are grateful to you for gracing National Level Webinar as a Resource Person on the topic
"Data Visualization Tool -Tableau" which was held on 22nd October 2021.

We express our sincere gratitude for delivering a very informative and demonstrative session on
how to create dashboards, visualize data and learn story telling in Tableau.

We look forward to a successful academic association in future. Your valuable contribution for
the webinar is highly appreciated.

Thanking you.

Warm Regards,

Dr. D. B. Bharati

FDP on "Course Framework & Formulation of PSOs"

23rd September 2021

Institute organised One Day internal FDP on "Course Framework & Formulation of PSOs" on 23rd September 2021 from 11 am to 2pm.

Objectives of Faculty Development Program:

1. To outline the features of outcome based education
2. To describe the structure of course file
3. To understand the mechanism of CO-PO mapping and CO Attainment
4. To formulate Programme Specific Outcome (PSOs)

Description of FDP:

FDP was especially focused on information sharing on how to prepare course file and explain the CO-PO mechanism. This FDP was organized keeping in mind the new changes in the revised MBA Syllabus 2019 in the field of Management education. Total 12 participants participated in the FDP.

Total faculty participants: 12

The internal FDP was conducted by Dr.Prajakta Warale. Session started with explaining the importance of course file. During the session various components of course files were explained such as course framework, Teaching and assessment plan, Comprehensive concurrent evaluation pattern in detail.

In the beginning MBA syllabus of 2019 pattern was explained in details. PEOs, GAs, COs and POs were explained to all staff members. Course file is an important document as far as curriculum planning is concerned. Rubrics for CCE was explained in greater details. Example of CO-PO mapping, CO-PSO mapping, CO-CCE mapping, CO-Teaching Learning Activity mapping was explained to all members. BLOOMS Taxonomy and various cognitive abilities were highlighted. Resource person explained all COs for the course, how to select proper concurrent evaluation tool to judge cognitive ability of the student. She gave various examples in HRM and Marketing. She further discussed the

Rajgad Dnyanpeeth's

Research & Development, Pune-
43

Approved by AICTE, Recognized by DTE (Govt. of Maharashtra), Affiliated to Savitribai Phule Pune University

recent case study of failure of CCD and how it was related to Economics, Strategic Management, Finance and HR. All participants clarified their doubts regarding BLOOMS taxonomy.

Further she explained regarding target attainment levels for course. PSO formulation exercise was done. The feedback/comments/expectations received from staff members, Industry representatives (employers) and graduating students for MBA programme were analysed and recorded. Resource person explained regarding what are PSOs, its importance and shared few examples related to PSOs. A brainstorming session was conducted to define PSOs for each specialisation. PSOs formulation exercise was conducted. Each specialisation house coordinator defined the PSOs.

In the end all specialisation House coordinator submitted PSOs to IQAC Coordinator.

Outcome:

- All faculty members learnt in detail about course framework, its structure etc.
- FDP helped in creating awareness and bringing more clarity in understanding Outcome Based Education (OBE).
- All faculty members understood the course rubrics and BLOOMS Taxonomy
- FDP helped in knowledge sharing on CO-PO mapping, CO Attainment mechanism, direct and indirect attainment.
- PSOs were formulated for each specialisation.

PROGRAMME ON
CASE STUDY WRITING

1 Feb. 2022 To 7 Feb.2022

PROF. G.V. MURALIDHARA
DIRECTOR, ICAI BUSINESS SCHOOL BANGALORE

an in-depth investigation of a phenomenon, individual, or an event. They help in investigating and understanding the underlying principles in an occurrence within a real-life context.

While there are some difficulties associated with the delivery of case studies, these can be overcome through forward planning, background research and informed participant selection.

In this context, we intend to conduct the FDP workshop on "Case study Writing" for the Faculty Members. You are requested to take the advantage of the same and register yourself for the FDP.

Dear Faculty Members,

Greetings from Rajgad Institute of

Management Research and Development!!!

The case study has been used by researchers for a long time and has been applied in different disciplines. It has been widely used in social sciences as a qualitative research method to investigate contemporary real-life situations and has provided a foundation of application of ideas and extension of methods.

When using case study, the researcher will get

Objectives of the Workshop:

- To train faculty members in writing case studies and teaching notes.
- To provide experiential learning and provide the participants hands-on exposure on identifying topics for developing case studies, doing research, writing a case study, editing a case study, developing a teaching note and publishing a case study.
- After attending the workshop, the participants will be equipped to develop their own case studies and publish.

Registration Link:-<https://forms.gle/Bbupf2ey1NnzqGGA9>**Registration Fees:**

Faculty/Research Scholars/

Participants from Industry – **Rs. 1000/-****Workshop Duration:**

3 Days – 1.2.2022 To 7.2.2022

Morning Session:- 10 am to 1 pm

Afternoon Session : – 2 pm to 5 pm

Bank Account Details:

Account Number : 60156873243

Account Name: RAJGAD DNYANPEETHS RIMRD

One Week FDP on "Case Study Writing"

Introduction:

Cases have become an integral part of management education today. The case study has been used by researchers for a long time and has been applied in different disciplines. It has been widely used in social sciences as a qualitative research method to investigate contemporary real-life situations and has provided a foundation of application of ideas and extension of methods. In this context, RIMRD intended to conduct the FDP workshop on "Case study Writing" for the Faculty Members.

Objectives of Faculty Development Program:

The participants through this FDP should:

1. Understand the case method in teaching of Management and Social Sciences;
2. To train faculty members in writing case studies and teaching notes.
3. To provide experiential learning and provide the participants hands-on exposure on identifying topics for developing case studies, doing research, writing a case study, editing a case study, developing a teaching note and publishing a case study.
4. After attending the workshop, the participants will be equipped to develop their own case studies and publish. Be motivated to write their own cases by understanding the intricacies of case writing process.

Description of FDP:

When using case study, the researcher will get an in-depth investigation of a phenomenon, individual, or an event. They help in investigating and understanding the underlying principles in an occurrence within a real-life context. While there are some difficulties associated with the delivery of case studies, these can be overcome through forward planning, background research and informed participant selection.

In line with this the institute had organised One Week Online FDP on "Case Study Writing" from 1st February 2022 to 7th February 2022 in online google and zoom platform. This FDP aims to bring out the writing skills in case study and creating teaching notes motivate the participants to write the 'case teaching'

Dr. M. V. Muralidhara was the resource person for the online FDP.

Day 1: FDP started with welcome speech by Dr. D. B. Bharati. FDP coordinator Dr. Prajakta Warale gave the introduction of the resource person. Dr. Muralidhara started with Introduction to the workshop and asked expectations from FDP from all participants. He also defined the objectives of FDP and discussed regarding different types of case studies. Later in the second session he explained about characteristics of a good case and also discussed components of a case. He discussed regarding the steps involved in case study writing; Later he elaborated on the qualities of a good case author. Participants asked various doubts regarding the case study steps and its components.

Day 2: Day 2 session started with providing guidelines for case writing, In the beginning general guidelines were given such as case study should always be written in past tense, there has to be opening hook and closing hook to the case study, case study must includes facts and it should not be based on author's opinion. The case study must also encourage critical thinking and involve intellectual and emotional level of the reader etc. He also suggested that language should be simple and easy to understand. He also suggested about the elements to be consider while selecting topic for the case study. Dr. Muralidhara also discussed on how to frame learning objectives. In second session, he elaborated on how to collect information from various online and offline resources, how to see whether the source is authentic? Also discussed regarding taking prior approval of the company before using information pertaining to any company. Later in the session he also discussed regarding giving correct title to the case study and how to write the introduction.

Day 3: Third day started with discussion of outline of the case. Dr. Muralidhara shared the outline of the case such as

- Abstract,
- Introduction,

Rajgad Dnyanpeeth's
Rajgad Institute of Management
Research & Development, Pune-43

Approved by AICTE, Recognized by DTE (Govt. of Maharashtra), Affiliated to Savitribai Phule Pune University

- ◆ Opening Hook,
- ◆ Learning Objectives,
- ◆ Company History,
- ◆ The Incidence
- ◆ Information About The Industry, Products Etc.,
- ◆ Challenges
- ◆ Strategies Used
- ◆ Looking ahead, Closing Hook,
- ◆ Any statistical information of the company, fact sheets etc.

The resource person also gave exercise to all participants to write introduction and prepare case outline and In second session, there was one to one reading of the case introduction and outline. Every participant was asked to read the case introduction loudly and then resource person gave suggestions.

Day 4: On third day the resource person gave exercise to all participants to write introduction and prepare case outline and individual case studies. On day four, individual case studies written by faculty members were read, discussed and changes, modifications were suggested by the resource person. and In second session, there was one to one reading of the case introduction and outline were discussed. Every participant was asked to read the case introduction loudly and then resource person gave suggestions.

Day 5: On fifth day of the FDP, Dr. Muralidhara explained components of the teaching notes and also discussed the characteristics of Good teaching note. He discussed that good teaching note may stimulate the thinking, give solution to the problem. The good teaching note may also relate the situation with the theory and framework. A good case must also have target audience and must also explain point wise briefing.

Day 6: Last session was focused on ethical and copyright issues in a case. A case author must also follow ethical practices in case writing. How to take care of ethical and copyright issues in a case was discussed by the resource person. The resource person also shared few platforms, websites where the case study can be published.

Rajgad Dnyanpeeth's
Rajgad Institute of Management
Research & Development, Pune-43

Approved by AICTE, Recognized by DTE (Govt. of Maharashtra), Affiliated to Savitribai Phule Pune University

All faculty members discussed their case problems and asked various doubts regarding the case study. The brain storming session was conducted followed up by quiz session on the Kahoot platform.

At the end Dr. Prajakta Warale, proposed vote of thanks.

Outcome:

- Total 25 teaching staff attended the FDP
- All faculty members learnt in detail about steps in writing a case study- introduction, outline of the case, teaching notes etc.
- All faculty members learnt regarding multimedia case study
- All faculty members learnt regarding the difference between case study and caselet.
- Many participants promised to write the case study

Sub: Invitation to be a resource person for One week online Faculty Development Programme.

Respected Sir,

We are running MBA programme since 2008 approved by AICTE New Delhi, DTE (Govt. of Maharashtra) and affiliated to Savitribai Phule Pune University. Our institute is running this programme under the aegis of "Rajgad Dnyanpeeth"

Every year we organize different FDPs, webinars and workshops for enrichment of the faculty. In line with this we like to invite you as a "Resource Person" for conducting online FDP on "Case study Writing" for faculty members. Your vast and expertise knowledge in this field will give us new versions of knowledge.

As per our telephonic conversation, we kindly request you to accept our invitation and guide the faculty members on the same.

Looking forward for your favorable reply.

With warm Regards,

Webinar Report on Fintech

The Institute has organised webinar on "**Fintech Webinar**" on 18th February 2022, from 11.30am to 1pm.

Objectives of the Webinar:

1. To learn concept of **Fintech Technology**
2. To know career opportunities in **Fintech industry**.
3. To know various trends in **Fintech industry** from digital business point of view.

Description of the Webinar:

Fintech, a portmanteau of "financial technology," is the application of new technological advancements to products and services in the financial industry. Our guide will walk you through what it is and how it's being used. **Fintech** is a portmanteau of the terms "finance" and "technology" and refers to any business that uses technology to enhance or automate financial services and processes. The term encompasses a rapidly growing industry that serves the interests of both consumers and businesses in multiple ways. From mobile banking and insurance to cryptocurrency and investment apps, **fintech** has a seemingly endless array of applications.

Internal Quality Assurance Cell (IQAC) in association with **Business Analytics House** has organised on "**Fintech**".

Total Students Participants: 65

The webinar started with welcome address given by Dr. Prajakta Warale, Coordinator – IQAC. She gave brief introduction of the Resource Person, Mr Shrikrishna Kalwade, Assistant Vice President, Sales & Marketing, MyLead FinTech Private Limited

At the beginning of the webinar Mr. Shrikrishna Kalwade gave detail introduction of **Fintech** industry, its importance, components etc. Later he also introduced to the CEO and Founder

Rajgad Dnyanpeeth's
Rajgad Institute of Management Research &
Development, Pune-43

Approved by AICTE, Recognized by DTE (Govt. of Maharashtra), Affiliated to Savitribai Phule Pune University

Dean Chaves, Managing Director, Clinton T. also shared their thoughts and introduced students to the training programme of 6 months.

Mr. Kalawade also shared the highlights and contents of the programme and told that students successfully completing the training programme will be offered the job in Fintech.

The session was well received by the students. At the end the feedback form was shared to all participants. The webinar was concluded with vote of thanks.

Outcome:

1. Students learned regarding importance of Fintech In Digital Business .
2. Students learned the new tools and techniques in fintech.
3. Students learned new trends in Fintech industry.
4. Total 65 students participated in the event.

NOTICE – SPSS Demo

All teaching staff is hereby informed that SPSS Demo has been arranged by SPSS South Asia (P) Ltd .Bangalore on Monday 25th July 2022 at 3pm.

Mode of SPSS Demo is arranged online on webex platform. All should attend the same. The details of webex meeting are as follows:

Join from the meeting link

Screenshots of SPSS Online Workshop- 25th July 2022

This screenshot shows a presentation slide titled "IBM SPSS Direct Marketing". The slide is divided into several sections: "Key Features", "Data origin", "Your options", and "Link response". The "Key Features" section lists several bullet points, including "Compare RFM scores from a data set to which each row contains the aggregated data for one customer or the data for one transaction" and "Cluster analysis with customer and company level/contact profiling works with various contact, group to measure RFM". The "Data origin" section mentions "Illustrate an an average customer value chart from various responses and spending on related to the sample". The "Your options" section lists "Segment RFM for targeted users and 2D models, allow response (RFM) data to be used as a new data set or a file" and "Export the RFM model results to new data as a new data file or quickly identify purchased based on high value customers". The "Link response" section includes "Export User a new file or that contains response rate by postal code" and "Segment general response rate based on 4 dimensions: those align, the Align in the complete view of postal code". The slide is part of a presentation in a web browser, with a navigation bar at the bottom showing "Ultimate", "Start video", "Share", and "Participants".

This screenshot shows a presentation slide titled "IBM SPSS Categories". The slide is divided into several sections: "Key Features", "REGRESSION", "MULTIDIMENSIONAL SCALING", "LOGIT", "MULTIDIMENSIONAL SCALING", "LOGIT", "MULTIDIMENSIONAL SCALING", "LOGIT", "MULTIDIMENSIONAL SCALING", "LOGIT". The "Key Features" section lists several bullet points, including "Dimensional scaling analysis" and "Real case on new integrated analysis of parameter". The "REGRESSION" section mentions "Dimensional scaling analysis" and "Real case on new integrated analysis of parameter". The "MULTIDIMENSIONAL SCALING" section lists "Metric Multidimensional scaling (MDS) analysis" and "Metric Multidimensional scaling (MDS) analysis". The "LOGIT" section lists "Metric Multidimensional scaling (MDS) analysis" and "Metric Multidimensional scaling (MDS) analysis". The slide is part of a presentation in a web browser, with a navigation bar at the bottom showing "Ultimate", "Start video", "Share", and "Participants".

IBM SPSS Data Preparation

Key features

- Automated data preparation**
 - Streamlines steps to speed up model building and improve prediction power
- Interactive discovery**
 - Prepare data and create models for modeling, include new variables, explore results, prepare data for reporting, visualize data, customize report and target lists, explore results, generate forecast information and recommendations, save data and apply model to new data
- Flexible data**
 - Validate data for modeling data sets
 - Work flexibly
 - Maximize percent of missing values, single category cases and cases with a value of one
 - Maximum number of variables
 - Maximum number of cases
 - Play examples if the data set is too large to view
 - Standard code & describe the data, view single variable values and apply them to multiple variables
 - Descriptions of data
 - Characteristics, domain & distribution and list cases for categorical variables or frequency for scale variables
 - Maximum and minimum data values
 - Single variable values
 - Apply values already existing in model values
 - Save default
- Big data and big models**
 - The CDT1000 administrator specifies the following settings:
 - Number of processing units
 - Number of processors in the assembly line
 - Storage and number of cases processed in parallel and number of in-flight assembly line
 - Can part of the assembly line to determine whether a case is submitted as an event
 - Use additional variables in the modeling data file including:
 - Assembly index
 - Final group ID case and case percentage
 - Variable, variable input, moment, variable value and variable value associated with a feature
 - CDT1000 administrator: Why is model in a 10-minute to 100?
 - CDT1000 administrator:
 - Assembly index file, assembly case ID file and assembly model file
 - The Customer Variable Name table for customer variable and the Target Variable Name table for categorical variable
 - Assembly index moment
 - Assembly index variable

Modeling

Prepare data with optimal feature, categorical case or more customer variables by identifying the value of each variable

Meeting info: Viewing Gaurav Kaly's screen | 100% | Layout

IBM SPSS Decision Trees

Key features

- Learn from both classification and regression
- Regression
- Classification
- Feature selection and variable selection
- Interactive classification
- Category mapping and identifying customer variables
- Classify cases into groups or predict values of a dependent target variable based on values of independent predictor variables
- Tabular look for explore data and variable selection, classification analysis
- How to use the value of a variable to predict the value of another variable, table or text in each case
- Collapsing and expansion of nodes during the model
- Generate reports automatically from the case interface
- Remove the building and saving of the model
- Save and load the model, or use results to build another using other IBM SPSS software products

Algorithms

- Best generalized model algorithm: CART by Leo Breiman (1984)
- Adaptive CART by R. Tibshirani (1984)
- Classification and regression tree (CART) by Leo Breiman, Jerome H. Friedman and Ross Quinlan (1984)
- CDT1000 by Leo and John (1984)

Features

- Interactive graphical model visualization of split selection rules
- Model visualization
- Case class history reports for highest and lowest classification

Modeling

- Export model reports to use of IBM SPSS software software available reports
- Generate reports from the case interface
- Export model reports to use of IBM SPSS software software
- Export model reports to use of IBM SPSS software software

IBM SPSS Regression

Meeting info: Viewing Gaurav Kaly's screen | 100% | Layout

Participants: Gaurav Kaly, 2516 185 0068, Ajay Tamboli, Deepmala Akhate, Dr. Robert

Chat: [Open]

IBM SPSS Forecasting

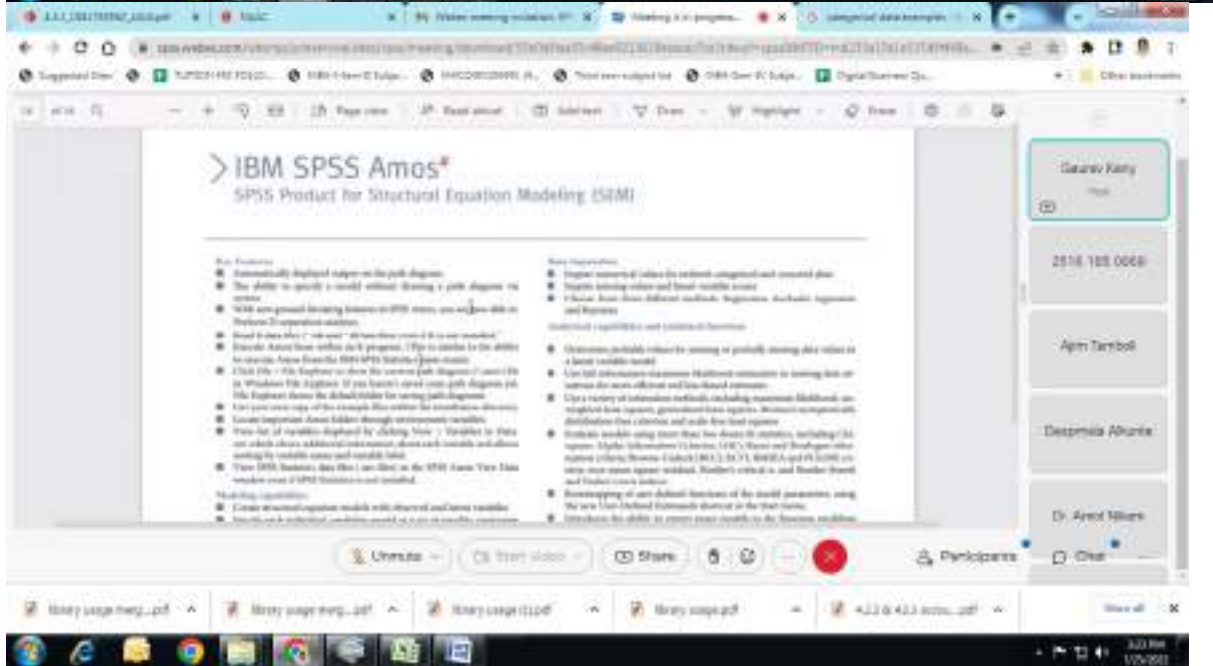

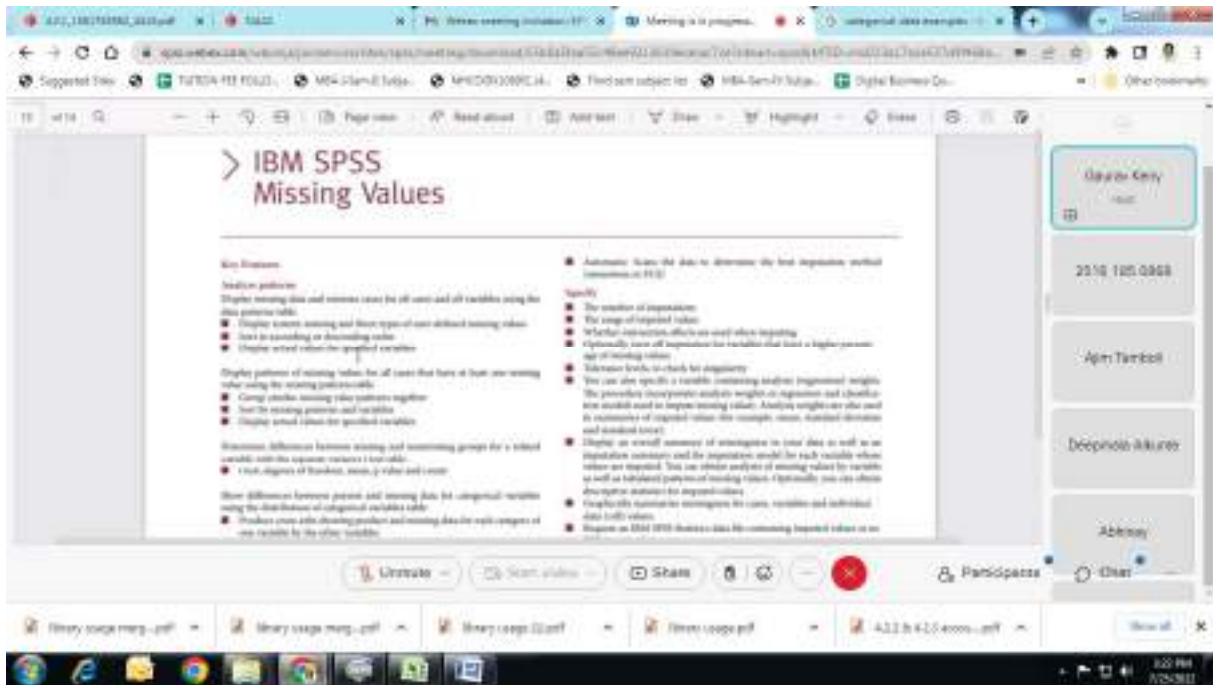

Key Features

- Model a set of time series variables by using the expert modeler or specifying the structure of an ARIMA or equivalent forecasting model.
- Allow expert modelers to define their problem variables and models.
 - Link model space to only ARIMA or only exponential smoothing models.
 - Test independent variable accuracy.
 - Specify seasonal, ARIMA models.
 - Produce forecasts. Different forecasts for seasonal and nonseasonal variables.
 - Generate or conditional models specified by autoregression or moving average models, with or without seasonal autoregression or moving average models, and seasonal differencing.
 - Use dependent variable transformations: square root and natural log transformation. Also use specific outliers. Outliers in all data, season, trend, seasonal, and nonseasonal components, and additive year-specific seasonal and nonseasonal components. Also include one or more seasonal functions and transformations for each additive year variable.
 - Run fit custom exponential smoothing models.
 - Fit nonseasonal model types: Single, dual, linear trend, seasonal, linear trend and seasonal trend.
 - Store seasonal model types: Single, seasonal, seasonal additive and seasonal multiplicative.
- Filter output to third number or percentage of best fitting or worst fitting models.
- Non-predictor values: linear coefficient. Tests upper confidence limits and lower confidence limits with upper bound for the data set.
- Specify forecast period: maximum of four starting values and confidence intervals.
- Export models to an XML file for later use by STATISTICAL EXPRESS.
- Apply model models to new or updated data.
- Reparameterize eight models: four weights, K&S, two seasonal rates, TD, ARIMA.
- Reparameterize model parameters and produce of fit measures from the data set but from the model file.
- Definitely choose model models supply.
- Obtain the probability (consistency) of the entire data set.
- Save output, fit measures, statistics and options in STATISTICAL EXPRESS.
- Export unseasonal models to an XML file.
- Fit ARIMA.
 - Produce multiplicative or additive seasonal forms for year-to-date forecasts.
 - Weight, linear or additive model.
 - Moving averages: linear, seasonal and seasonal adjustment forms, seasonally adjusted series, smoothed series, and components, and integrate with season.

IBM SPSS Complex Samples

Key Features

- Complex Samples Plan (SPSS PLAN)**
 - Develops a complete plan to specify the sampling design to create a complex sample design or random design used for probabilities in IBM SPSS Complex Samples software.
- Complex Samples Selection (SPSS PLAN)**
 - Selects complex, probability-based samples from a population. It allows users to specify a sample design created through the SPSS PLAN procedure.
- Complex Samples Descriptions (SPSS PLAN)**
 - Estimates means, variances and ratios and compares their standard errors, design effects, confidence intervals and significance tests.
- Complex Samples Estimation (SPSS PLAN)**
 - Displays one-way frequency tables or two-way cross-tabulations and associated standard errors, design effects, confidence intervals and significance tests.
- Complex Samples General Linear Model (SPSS PLAN)**
 - Enables you to build linear regression, analysis of variance (ANOVA) and analysis of covariance (ANCOVA) models.
- Complex Samples Model (SPSS PLAN)**
 - Estimates regression models on a basis of unaided probabilities despite their complexity using the selected variables from the design.
- Complex Samples Logistic Regression (SPSS PLAN)**
 - Estimates binary logistic regression models as well as conditional logistic regression models.
- Complex Samples Two-Stage Regression (SPSS PLAN)**
 - Applies two-stage regression to adjust for nonrandom selection in the design of data before the estimation of an event.
