### Objectives:

- To make students understand the Khadakwasla Dam Rejuvenation Project
- To provide a platform for students to contribute to society
- To maintain ecological balance, improving air quality and climate amelioration, addressing environmental concerns such as global warming and deforestation

### Description:

This event was organized under Social Soul Cell – Extension Activity of RIMRD at Khadakwasla in association with Green Thumb foundation. Green Thumb Foundation, an environmental protection group which has been working relentlessly for the desiltation of the Khadakwasla dam for over three decades. The Khadakwasla dam is one of the major sources of water for Pune city and the district. Over the years the capacity of the dam has reduced due to siltation. After a study, it was clear that the dam could not arrest the rain water in the catchment, due to massive siltation.

Green Thumb foundation with NAAM foundation, via innovative engineering, removed around 15 lakh trucks of silt. The silt or deposited top soil which is very fertile and ideal for crops, was distributed to the farmers residing at the periphery of the dam. This led to improvement in their land quality and water holding capacity of the land. The initiative is expected to double farm production and contribute to improving the income and quality of life for farmers.

The students of Rajgad Institute participated in this great social activity and contributed to this initiative by helping in this project. Students understood the importance of Khadakwasla Dam Rejuvenation Project and how it will work in the future. A total of 66 students participated in this activity and this activity received a good response from the students

### Outcomes:

- Through this activity the students and faculty member understood that The Khadakwasla Rejuvenation Project eliminates the need for building a new dam to meet the needs of Pune city
