Virtual Tree Plantation Activity, 11th January 2022 (Tuesday)

Objectives of Virtual Tree Plantation Activity:

- To create awareness and to motivate students for Tree Plantation.
- To maintain ecological balance, improving air quality and climate amelioration, addressing environmental concerns such as global warming and deforestation

Description of Virtual Tree Plantation Activity:

RIMRD organizes a virtual tree plantation activity every year to create awareness in students about the tree plantation. This year RIMRD organized it on 11th January 2022 on Tuesday. It was organized on the occasion of birthday of Founder President Hon. Shri **Anantaraoji Thopate** of Rajgad Institute of Management Research & Development.

Since the beginning, trees have furnished us with two of life's essentials, food and oxygen. Trees have supported and sustained life throughout our existence. They have a wide range of practical and commercial uses. Trees provide important habitat for wildlife and are fundamental to many ecosystems on Earth. Even just a view of trees in cities can help to reduce stress and anxiety, and improve the overall well-being of an urban population. Trees are important for physical and mental wellness. A view of trees and green spaces from hospital windows has been found to increase the healing of patients, decrease our stress, and children do much better in school when they have a view of trees and green space and can spend time playing in nature.

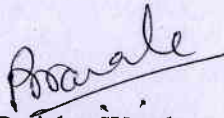

We all are connecting with each other in this pandemic. But this activity shows how important it is to connect with nature. Students planted the trees nearby their area. I never imagined a virtual tree plantation drive could be conducted online, and it would be so much fun! The happiness I felt after this event is priceless. This event made us realize the significance of nature.

This activity was organized under social soul cell. Total number of 66 students participated in this activity.

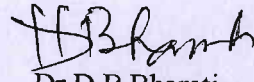

Outcomes of Virtual Tree Plantation Activity:

- Students understood the benefits and importance of Tree Plantation.
- The awareness was created among the students regarding Tree Plantation.

Mauli Seva Kendra Dhankawadi, Pune-43

Grocery Donation

Objectives of the Programme:

1. To donate grocery to residents of Old age home
2. To create awareness about moral responsibility towards the old age people/citizens.

Description of the Programme:

The institute had organized a visit at Mauli Seva Kendra Dhankawadi, Pune for Grocery Donation and having some time along with the residents of the old age home.

The steady security in an old age home gives them protection from intruders and helps them live a safe and secure life. One of the factors that make old age homes attractive to elders is the companionship. They are in constant company of people their own age.

Students and the staff of RIMRD made it sure that they had a free of mind moment during pandemic along with us. Hence, institute decided to donate some grocery such as Poha, Rice, Wheat, Biscuits, Oil, Sugar, Tea powder, Groundnuts and much more to the Seva Kendra for their daily needs. After giving out the grocery we also spent our some time along with them. We introduced ourselves to each other and made the environment friendly. Further with had some activities along with them such as singing, story telling (some real life experience), and ended it with some dance.

Outcome of the Programme:

- Different grocery items were donated to Old age home to suffice their daily needs.
- The helped in creating awareness about moral responsibility towards the old age people/citizens
- Total 17 students and 12 faculty members attended the activity

E-Waste Collection & Donation on 11/01/2022

Objectives of Programme:

- 1) To develop awareness among students about the growing issue of e-waste
- 2) To gather e-waste from the house and neighbors.

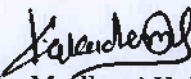

Description of Programme:

Rajgad Institute of Management Research & Development Pune 43 Dhankawadi and social souls cell initiated an activity to collect e-waste and to submit it in the Kuldeep E-Waste Disposals. It is followed guideline of Maharashtra Pollution Control Board(MPCB).

E-waste recyclers use processes such as open incineration and acid-leeching. This situation could be improved by creating awareness and improving the infrastructure of recycling units along with the prevalent policies. The majority of the e-waste collected in India is managed by an unorganized sector.

Outcome:

- Students were made aware of the issue of e-waste.
- Students knew their duties regarding e-waste (if created), which should be appropriately recycled.
